To Do:  ☐ Have an earthquake,	To Do:				

\*Rotate every six months.

The Family Disaster Supplies Calendar is intended to help you prepare for disasters before they happen. Using the calendar, your family can assemble an emergency kit in the small steps over a six-month period. Check off each week as you gather the contents. Supplies may be stored all together in a large plastic garbage can or food may be kept on kitchen shelves. Remember to rotate your perishable supplies and change water every six months.

## To get started:

## Check your house for supplies that you already have on hand.

- Decide where you will store supplies.
- · Meet with your family to plan for all hazards.
- Explain how to prepare; explain when and how to respond.
- Discuss what to do if you need to evacuate.

Practice your plans on a regular basis.

Select foods based on your family's needs and preferences. Pick low-salt, water-packed varieties when possible. Canned meats may include tuna, chicken, raviolis, chili, beef stew, Spam, corned beef, etc.

Feel free to copy this for your friends and family.
